

# TĀKUTA TAMAITI

**Through our everyday connection and kōrero with whānau at Mamia we know that questions arise from time to time about the health and development of tamariki and mokopuna 0 – 5 years.**

Tākuta Tamaiti can meet that need here at Mamia, offering kōrerorero sessions with a child health specialist and cultural therapist.

Once a week Dr Eve Fifiield (Developmental Pediatrician and Ama of Mamia) and Erena Tomoana (Taumanu ki Mamia) can meet with you and your pēpi or tamaiti age 0-5, and support you with whānau-centered information and tīpuna tools for eryour pēpi, tamaiti and whānau wellbeing.

**We welcome any pātai or enquiries to book a time, please contact Erena at Mamia:**
